DETAILED ACTION

This office action is responsive to continuation filed on 11/03/2003.

Claims 5, 7-16 are pending.

Claim Objections

1. Claim 14 is objected to because of the following informalities:

The phrase "the home network interface" lacks antecedent basis. Appropriate correction is required.

Such lack of antecedent basis appears to be caused inadvertently by eliminating the first limitation "a home network interface for connection to a home network" from corresponding claim 9 of US Patent 6,665,303.

Double Patenting

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

3. Claims 5, 7-16 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-11 of prior U.S. Patent No. 6,665,303. This is a double patenting rejection.

The only difference between claim 5 and claim 1 of the patent is the change of the phrase "the judgment unit for judging" into a "judgment unit configured to judge".

There is no difference between claims 7-13, 16 and respective claims 2-13, 15-16.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See Form PTO-892.
